

SOLTANA
Nature Residences

Artist's Impression

Where nature feels right at home.

Cebu's first eco-themed condominium development sits at the heart of a rapidly developing, increasingly urban island city. Located in Mactan, Cebu, Soltana Nature Residences strikes the right balance between celebrating Mother Earth and putting together modern convenience. Escape to a lush, green oasis in the middle of the city and minutes away from some of Cebu's most popular beach resorts. Escape to Soltana Nature Residences.

Take to the neighborhood shops.

A short drive away from some of Lapu-Lapu City's most popular shopping destinations, Soltana Nature Residences will have its own commercial strip to add variety to its residents' retail and dining options. The shops will be found at the ground floor of the first three buildings and will be great vantage points from which to enjoy verdant scenery.

Artist's Impression

*It's a jungle out there,
and that's how we like it.*

Satisfy your sense of adventure and discover something new to do each day in your tropical condo complex. In addition to amenities that come standard with every modern condominium, Soltana Nature Residences is built around a lifestyle that encourages full immersion in nature, truly living up to its name.

Meditate in the middle of the Orchard Forest, or enjoy the company of friends and family in one of the property's many parks. Dine alfresco at the commercial strip and take in the verdant scenery. Jog along the development's tree-lined paths. There are even plans for a community vegetable garden. Take your pick and indulge in the tropical paradise that is Soltana Nature Residences.
