

HORIZONS
CEBU

**BE ON TOP
OF THE WORLD**

THE FEELING OF WAKING UP TO THIS VIEW IS IMMEASURABLE.

Horizons 101 is a natural standout in the city skyline.
The tallest structure in Cebu and outside of Metro Manila,
Horizons 101 truly elevates cosmopolitan living
to breathtaking new levels.

HORIZONS 101 IN NUMBERS

Rising **173** meters above sea level, Horizons 101 gets its name from the combined total floors of Tower 1, with **55** floors, and Tower 2 with **46**.

High-speed elevators take **55** seconds to reach the **55th** floor.

Key areas within the Towers are supported by **100%** back-up power.

AN ENGINEERING MARVEL

Solid from top to bottom, Tower 1's foundation alone uses **16,000** cubic meters of concrete—equivalent to **245** NBA basketball courts!

Further strengthening Horizons 101, a staggering **10,000,000** kilograms of metals are incorporated into its structure. It would take **500** trailer trucks to carry that much.

As of August 19, 2016, 86 units have achieved **ZERO** punch list—the gold standard in quality construction.

Tastefully appointed and thoroughly modern, Horizons 101 is a restful home that's right within a dynamic neighborhood. A short walk or drive away from a multitude of activities, Horizons 101 promises a lifestyle that is both elevated and exciting.

Lever-type Door Handles

Requiring less effort to operate than doorknobs, these handles make opening doors easier.

Soft-close Cabinets

The sound of banging cabinet doors is eliminated with soft-close hinges.

Standard-sized Modern Design Fiberboard Doors

Made of engineered wood, these doors are not only durable, but also more environment-friendly.

No-drip Countertops

Raised edges on sink countertops prevent spills from reaching the floors.

Elevator Key Card Access System

Building security is enhanced by a system that limits floor access to its residents.
